

## **Calling All Skilled Volunteers: Help Us Grow!**

Are you passionate about sustainability, animals, and making a real impact? We're looking for **skilled volunteers** to join our mission and lend their talents to help our farm thrive — both on-site and remotely!

Whether you have hands-on experience or creative digital skills, **there's a place for you here.** Here's how you can help:

### **On-Farm Help Needed:**

#### ☐ **Gardeners & Growers**

Help maintain and expand our food gardens — planting, weeding, harvesting, and learning alongside a dedicated team.

#### **Construction & Building**

We're always improving — from building animal shelters to infrastructure upgrades. If you know your way around a hammer, we need you!

#### **Animal Caretakers**

Assist with feeding, grooming, and general care for goats, chickens, or other farm animals. Experience is appreciated, but we'll train you!

#### **Water Hauling & Maintenance**

Water is life! We need help transporting and managing water for plants and animals, especially during dry spells.

### **Remote Opportunities:**

#### **Artists & Illustrators**

Help us tell our story visually! Create illustrations, social media graphics, educational signage, or farm branding materials.

## Social Media & Digital Support

We're growing our digital presence. If you're skilled in content writing, social media management, or SEO — let's collaborate!

## Admin & Project Support

Got remote work experience? Help us with coordination, scheduling, volunteer onboarding, and more from wherever you are.

---

## Why Volunteer With Us?

- Be part of a sustainable, hands-on project that gives back to the land
  - Gain experience, learn new skills, or apply what you already know
  - Connect with a like-minded community
  - Flexible time commitment — a few hours a week can go a long way!
- 

## Ready to Help?

Send us a message with a bit about yourself, your skills, and how you'd like to contribute. We'll match you with a project that fits your interests and availability.

**Together, we grow stronger.** 

Thank you for supporting community-centered, sustainable farming!

## Mission Statement

At The Farm Life, our mission is to sow real seeds of change by creating a hands-on, inclusive learning environment rooted in sustainable farming, traditional land stewardship, and community connection. We promote agricultural education, environmental awareness, and personal growth through gardening, animal care, and composting activities. Our goal is to foster self-reliance, environmental responsibility, and mutual respect among individuals of all ages and backgrounds.
